Re Gonalive

November 11th, 1926. Also received information to day that ~~when~~ William Garven left the Burns Detective Agency he opened up an office in the Knickerbocker Building. I am informed that he took a partner with him by the name of Roder, who was formerly in the employ of the Schindler Detective Agency. I find that Roder while in partnership with Garven was arrested in Westchester County charged with forging some bonds and is at the present time serving time in prison for ~~this~~ offense.
